PROFILE

Passionate frontend developer with expertise in React, Node.js, and MongoDB. I design and develop responsive, accessible interfaces aligned with user and business goals. With a focus on component-based architecture and clean code, I bridge design and development to deliver scalable, user-centric digital products. Continuously learning and improving, I seek opportunities to contribute to teams that value collaboration, and innovation.

EMPLOYMENT HISTORY

May 2022 — Sep 2023

Web Developer , Freelance
